

INTERNSHIP OFFER

Ref. No. PL-2024-PLO031

Internship	Host Informa	tion		
Internship Host:	Zeromskiego 116 Locatio Lodz 90-543 Workir		Website: www.chemia.p.lodz.	pl
			Location of placement: Lodz Nearest airport: Lodz (LCJ) or Warszawa (WAW/WMI) Working hours per week: 35.0 Working hours per day: 7.0	
Number of en Business or p	nployees: 70 roducts: Resea	rch institute		
Student Re	quired			
General Disci	pline: CHEN	MISTRY AND CHEMICAL ENGINEERING	Completed years of study:	3
Field of Study	r: Chem	nistry, General.	Student status requirements: Language required:	required during the whole internship perio English Good (B1, B2) Or
Required Qualifications and Skills:		Other requirements:		
			Student form Chemical Engineering Faculty is also warmly welcome.	
Member of on - valorization of - gasification a - preparation a - research of of - crystal and r	e of the researc of biomass to G and pyrolysis of and properties c environmental s nolecular structo	of chemical sensors oxide-semiconductor, amples, bodily fluids and ceramic archaeolog ure determination by XRD methods,	-	c methods,
Member of on - valorization - gasification a - preparation a - research of e - crystal and r - polymorphis - synthesis, st Number of we Within the mo Or within:	ee of the researc of biomass to G and pyrolysis of and properties of environmental s nolecular struct m and new stru- rructure, biologic eeks offered: onths:	VL on metalic catalysts, biomass, of chemical sensors oxide-semiconductor, amples, bodily fluids and ceramic archaeolog	gical studies using chromatographic apounds and heteroatom ligands. <i>Working environment:</i> Gross pay: Deduction to be expected:	Research and development 1000 PLN / Month 0%
Member of or - valorization (- gasification (- preparation (- research of (- crystal and r - polymorphis - synthesis, st Number of we Within the mo Or within: Company close	ee of the researc of biomass to G and pyrolysis of and properties of environmental s nolecular struct m and new stru- rructure, biologic eeks offered: onths: sed within:	VL on metalic catalysts, biomass, of chemical sensors oxide-semiconductor, amples, bodily fluids and ceramic archaeolog ure determination by XRD methods, cture of pharmacological substance, cal activity and properties of coordination com	gical studies using chromatographic apounds and heteroatom ligands. <i>Working environment:</i> <i>Gross pay:</i>	Research and development 1000 PLN / Month 0%
Member of on - valorization - gasification a - preparation a - research of e - crystal and r - polymorphis - synthesis, st Number of we Within the mo Or within: Company clos	ee of the researc of biomass to G and pyrolysis of and properties of environmental s nolecular struct m and new stru- rructure, biologic eeks offered: onths: sed within:	VL on metalic catalysts, biomass, of chemical sensors oxide-semiconductor, amples, bodily fluids and ceramic archaeolog ure determination by XRD methods, cture of pharmacological substance, cal activity and properties of coordination com	gical studies using chromatographic apounds and heteroatom ligands. Working environment: Gross pay: Deduction to be expected: Payment method / time of first	Research and development 1000 PLN / Month 0%
 valorization of gasification a preparation a research of of crystal and r polymorphis synthesis, st Number of we Within the mo Or within: Company closs Latest possible Accommod	ee of the researc of biomass to G and pyrolysis of and properties of environmental s nolecular struct m and new stru- rructure, biologic eeks offered: onths: sed within: le start date: dation	VL on metalic catalysts, biomass, of chemical sensors oxide-semiconductor, amples, bodily fluids and ceramic archaeolog ure determination by XRD methods, cture of pharmacological substance, cal activity and properties of coordination com 6 - 6 05-AUG-2024 - 20-SEP-2024 -	gical studies using chromatographic apounds and heteroatom ligands. Working environment: Gross pay: Deduction to be expected: Payment method / time of first	Research and development 1000 PLN / Month 0%
Member of on - valorization - gasification a - preparation a - research of e - crystal and r - polymorphis - synthesis, st Number of we Within the mo Or within: Company clos Latest possibl Accommot	e of the researc of biomass to G and pyrolysis of and properties of environmental s nolecular struct m and new stru- rructure, biologic eeks offered: onths: sed within: le start date: dation ork:	VL on metalic catalysts, biomass, of chemical sensors oxide-semiconductor, amples, bodily fluids and ceramic archaeolog ure determination by XRD methods, cure of pharmacological substance, cal activity and properties of coordination com 6 - 6 05-AUG-2024 - 20-SEP-2024 - -	pical studies using chromatographic apounds and heteroatom ligands. Working environment: Gross pay: Deduction to be expected: Payment method / time of first payment:	Research and development 1000 PLN / Month 0% t Cash monthly /
Member of on - valorization of - gasification a - preparation a - research of of - crystal and r - polymorphis - synthesis, st Number of we Within the mo Or within: Company clos Latest possibl Accommod Canteen at we Expected type	ee of the research of biomass to G and pyrolysis of and properties of environmental s molecular struction m and new struc- rructure, biologic eeks offered: inths: sed within: le start date: dation ork: e of accommode	VL on metalic catalysts, biomass, of chemical sensors oxide-semiconductor, amples, bodily fluids and ceramic archaeolog ure determination by XRD methods, cture of pharmacological substance, cal activity and properties of coordination com 6 - 6 05-AUG-2024 - 20-SEP-2024 - - - No ation: Student dormitory	pical studies using chromatographic apounds and heteroatom ligands. Working environment: Gross pay: Deduction to be expected: Payment method / time of first payment: Estimated cost of lodging:	Research and development 1000 PLN / Month 0% t Cash monthly / 0 PLN / Month
Member of on - valorization of - gasification a - preparation a - research of of - crystal and r - polymorphis - synthesis, st Number of we Within the mo Or within: Company clos Latest possibl Accommod Canteen at we Expected type	e of the researc of biomass to G and pyrolysis of and properties of environmental s nolecular struct m and new stru- rructure, biologic eeks offered: onths: sed within: le start date: dation ork:	VL on metalic catalysts, biomass, of chemical sensors oxide-semiconductor, amples, bodily fluids and ceramic archaeolog ure determination by XRD methods, cture of pharmacological substance, cal activity and properties of coordination com 6 - 6 05-AUG-2024 - 20-SEP-2024 - - - No ation: Student dormitory	pical studies using chromatographic apounds and heteroatom ligands. Working environment: Gross pay: Deduction to be expected: Payment method / time of first payment:	Research and development 1000 PLN / Month 0% t Cash monthly / 0 PLN / Month
Member of on - valorization - gasification a - preparation a - research of e - crystal and r - polymorphis - synthesis, st Number of we Within the mo Or within: Company clos Latest possible Accommod Accommodati	ee of the research of biomass to G and pyrolysis of and properties of environmental s molecular struction m and new struc- rructure, biologic eeks offered: inths: sed within: le start date: dation ork: e of accommode	VL on metalic catalysts, biomass, of chemical sensors oxide-semiconductor, amples, bodily fluids and ceramic archaeolog ure determination by XRD methods, cture of pharmacological substance, cal activity and properties of coordination com 6 - 6 05-AUG-2024 - 20-SEP-2024 - - - No ation: Student dormitory	pical studies using chromatographic apounds and heteroatom ligands. Working environment: Gross pay: Deduction to be expected: Payment method / time of first payment: Estimated cost of lodging:	Research and development 1000 PLN / Month 0% t Cash monthly / 0 PLN / Month
Member of on - valorization - gasification a - preparation - research of e - crystal and r - polymorphis - synthesis, st Number of we Within the mo Or within: Company clos Latest possible Accommod Accommodati Additional	ee of the researc of biomass to G and pyrolysis of and properties of environmental s molecular struct m and new stru- rructure, biologic eeks offered: onths: sed within: le start date: dation ork: e of accommodation for will be arrange	VL on metalic catalysts, biomass, of chemical sensors oxide-semiconductor, amples, bodily fluids and ceramic archaeolog ure determination by XRD methods, cture of pharmacological substance, cal activity and properties of coordination com 6 - 6 05-AUG-2024 - 20-SEP-2024 - - - No ation: Student dormitory ged by: IAESTE	pical studies using chromatographic apounds and heteroatom ligands. Working environment: Gross pay: Deduction to be expected: Payment method / time of first payment: Estimated cost of lodging:	Research and development 1000 PLN / Month 0% t Cash monthly / 0 PLN / Month

Date:

04-FEB-2024
